- 1. Mayor Pro Tem Steele called the special meeting to order at 10:00 AM in Plainwell City Hall Council Chambers.
- 2. Roll Call: Present: Mayor Pro Tem Steele, Councilmember Keeney and Councilmember Wisnaski. Absent: Mayor Keeler and Councilmember Overhuel.
- 3. New Business:
  - **A.** DPW Superintendent Nieuwenhuis reported ongoing research to identify opportunities for better paving of city streets in need. He noted that most asphalt companies are hard to schedule, particularly for smaller jobs like Plainwell which may not be cost effective for the firm. Director Nieuwenhuis found a used "pull paver" machine for sale, which would work for up to 100' sections of road. The machine is a bit dated, but will work well for Plainwell staff once trained, which is an option from the original owner of the machine. Councilmember Wisnaski asked about rolling the new asphalt and grinding the old asphalt; Director Nieuwenhuis reported that the city would need to rent a roller most probably because the roller we have is not wide enough. He further reported that the city may need to purchase a grinder in the future. There was discussion of a training and project plan.

A motion by Keeney, seconded by Wisnaski, to approve the purchase of a paving machine and trailer from Dexter's Asphalt for \$5,500.00. On a roll call vote, all in favor. Motion passed.

# MINUTES Plainwell City Council April 26, 2021

- 1. Mayor Keeler called the regular meeting to order at 7:00 PM in Plainwell City Hall Council Chambers.
- 2. Ken Fritz of Lighthouse Baptist Church gave the invocations.
- 3. Pledge of Allegiance was recited.
- Roll Call: Present: Mayor Keeler, Mayor Pro Tem Steele, Councilmember Keeney and Councilmember Wisnaski. Absent: Councilmember Overhuel.
   A motion by Steele, seconded by Keeney, to excuse Councilmember Overhuel with prior notification. On a voice vote, all in favor. Motion passed.
- 5. Approval of Minutes:

A motion by Steele, seconded by Wisnaski, to accept and place on file the Council Minutes of the 04/12/2021 regular meeting. On voice vote, all voted in favor. Motion passed.

- 6. Public Comment: None.
- 7. County Commissioner Report: None.
- 8. Agenda Amendments: None
- 9. Mayor's Report: None
- 10. Recommendations and Reports:
  - A. City Manager Wilson provided an update on the mill demolition and introduced GHD Project Manager Jodie Dembowske. The project is approximately 12-16 weeks behind, which requires additional oversight by GHD. A letter was sent to Melching Inc. regarding "liquidated damages" of \$1,000 per day, asking for justification for the city having caused delays. The original project end date was February 29. A Change Order of \$19,603.75 for GHD oversight was entered and needs confirmation. This Change Order is for April 2021 only additional oversight will be needed, but a final number isn't known due to not having a completion date. Councilmember Wisnaski asked why the city pays more for Melching's delayed completion. Manager Wilson noted the GHD oversight is necessary to project city assets and future development, and that the liquidated damages will help offset some of the additional investment in oversight, which is necessary to keep the demolition within the contracted specifications.

    A motion by Wisnaski, seconded by Keeney, to confirm a Change Order with GHD for \$19,603.75 for additional construction oversight and project support through April 26, 2021. On a roll call vote, all in favor. Motion passed.
  - B. City Manager Wilson reported an additional change order with Robert Darvas Associates for additional structural engineering related to in-fill of Building 10 as part of the Demolition Project.
    A motion by Keeney, seconded by Steele, to confirm a Change Order for \$5,000.00 to Robert Darvas Associates for \$5,000.00 for additional consulting structural engineering services. On a roll call vote, all in favor. Motion passed.

- **C.** City Manager Wilson reported on Melching's Pay Application #5. He noted GHD is still working through the details, and that the pay application to the State will be issued soon. Tonight's actions allow the contractor to be paid as funds are available.
  - A motion by Steele, seconded by Wisnaski, to approve Pay Application #5 for Melching, Inc. in an amount not to exceed \$582,495.30. On a roll call vote, all in favor. Motion passed.
- **D.** Superintendent Nieuwenhuis solicited three (3) bids for asphalt product to be used by the recently acquired paving machine. The quotes were very similar and the recommendation is to use the more local vendor, Wyoming Asphalt for product up to \$17,000.00 for Spring 2021 paving.
  - A motion by Wisnaski, seconded by Keeney, to accept the bid from Wyoming Asphalt for road paving product in an amount not to exceed \$17,000.00. On a roll call vote, all in favor. Motion passed.
- **E.** City Charter requires Council approval for all dispositions and sale of city-owned assets. Superintendent Nieuwenhuis has identified three (3) city assets for sale. A chop saw can be sold for \$50 and a leaf blower could be sold for \$20. A John Deere mower could be sold at auction or as a trade-in, but it is believed the auction would net a higher value.
  - A motion by Steele, seconded by Keeney, to authorize the sale of city assets as presented, with the John Deere offered at auction. On a roll call vote, all in favor. Motion passed.
- **F.** Superintendent Nieuwenhuis solicited quotes for a mower needed to replace an obsolete model. The quotes and time frames are included in the Council Packet, but the Administration recommends a Grasshopper Mower from Starr Lawn and Garden in an amount not to exceed \$10,995.00. Council discussed the cost of future repairs and the delivery time. There was discussion of desired models and a local vendor capable of servicing its product.
  - A motion by Steele, seconded by Wisnaski, to approve the purchase of an Exmark mower from Steensma Lawn & Power Equipment in an amount not to exceed \$11,999.00. On a roll call vote, all in favor. Motion passed.
- G. City Manager Wilson reminded Council of a pending Option Agreement to purchase acreage in Gun Plain Township. The Township has discussed the draft 425 agreement included in the Packet and has asked the City to consider 1 mill for the entirety of the agreement as well as a "floor" of \$6,000 per year in taxes. Council considered options for reducing the cost of the 425. City Manager Wilson noted that there is heavy interest in the land from existing Industrial Park businesses who have hinted at leaving if they are not able to expand. Once the property is developed and full, the issue of cost should not be an issue. The 425 agreement is for 50 years after which the property remains inside the city limits. This is a unique economic development opportunity to help the businesses in the Park that mean so much to the city. A motion by Steele, seconded by Keeney, to authorize the City Manager to continue 425 Agreement negotiations with Gun Plain Township for 1 mill with a "floor" of \$6,000 per year in taxes. On a roll call vote, all in favor. Motion passed.
- **H.** AT&T approached the City asking for a reduction of rent due to market conditions as well as an extension. The existing lease expires on July 31, 2023. The attached lease extends the term from August 1 2023 and would have 5 separate consecutive additional periods of 5 years each. Rent would be reduced from approximately \$1,300 to \$1,000 per month. However, staff has asked for relocation language that would allow the City to give 12 months' notice to relocate (possible tower in the industrial park). If AT&T does not wish to relocate than the lease will be terminated. Our City attorney has reviewed the proposed lease. Council and staff have discussed possibly demolishing the tower on Thomas Street at some point in the future since it is not in use. If Council, at some point, wishes for the removal of this tower we would

have the ability to terminate the lease. In reviewing the document our address is wrong and they did not include a survey of the existing "leased" premises. I would like to clean that up before the document is executed

A motion by Steele, seconded by Keeney, to authorize the City Manager to execute an extension of the Lease Agreement with AT&T for the Thomas Street Water Tower, with the ability to make minor changes to the draft agreement. On a roll call vote, all in favor. Motion passed.

#### 11. Communications:

A. A motion by Steele, seconded by Wisnaski, to accept and place on file the March 2021 Public Safety Report. On a voice vote, all in favor. Motion passed.

#### 12. Accounts Payable:

A motion by Keeney, seconded by Wisnaski, that the bills be allowed and orders drawn in the amount of \$50,692.89 for payment of same. On a roll call vote, all in favor. Motion passed.

- 13. Public Comments: None
- 14. Staff Comments:

Personnel Manager Lamorandier reported a compliance audit with USDA is scheduled for April 24, 2021.

Superintendent Nieuwenhuis reported preparing for the 2021 Flower Program and meeting with the volunteers.

Community Development Manager Siegel reported having been appointed to the Economic Development Commission for Allegan County. She reported the building at 220 S. Main has been purchased and will house a financial services firm. She noted a May 7, 2021 Grand Reopening of Stanford Lodge with new management.

Superintendent Pond reported having received a new 5-year permit from the State of Michigan which includes requirements for PFAS monitoring and testing. He also gave a report on the Morrow Dam sediment cleanup.

Clerk/Treasurer Kelley met with legislators last week to discuss pending election law changes. Otherwise he is focused on the budget.

#### 15. Council Comments:

Councilmember Wisnaski inquired about the South Main gas station. City Manager Wilson reported that a Consent Order was to be delivered on April 24, 2021 requiring 90 days to complete the fixes before additional actions could be taken.

#### 16. Adjournment:

A motion by Steele, seconded by Keeney, to adjourn the meeting at 8:42 PM. On voice vote, all voted in favor. Motion passed.

#### Change Order 02 – Additional Project Oversight and Support

Dear Erik Wilson:

GHD has prepared this Change Order (CO) to the City of Plainwell (City) for additional project management and oversight related to the Phase III Decommissioning and Demolition Project at the Former Plainwell, Inc., Mill Property in Plainwell, Michigan (Site).

#### 1. Overview

The City of Plainwell has received a Unique/Innovative Community Development Blight Grant (CDBG) from the Michigan Economic Development Corporation (MEDC). The grant funds will be used to remove blighted buildings from the west and central portions of the Mill building complex at the Site.

Melching, Inc. (Melching) provided the lowest responsive bid for the project and was awarded the project. The schedule provided as part of the Melching bid allowed for up to 29 weeks to complete the entire project. The project began on July 20, 2020 with the 29 weeks elapsing on February 12, 2021 (allowing for a 1-week hiatus between December 28, 2020 and January 3, 2021). On February 12, 2021, the buildings were approximately 30 percent demolished with restoration efforts at less than 20 percent complete. GHD managed field oversight during slow periods of the project by having our oversight staff conduct other work so as not to burden the project with standby costs. This management and reallocation of budget deemed unnecessary for other work tasks allowed for the project to remain within the overall budget through the end of March 2021.

GHD prepared an interim CO to cover the costs of additional field oversight and project support by GHD through April 26, 2021. The City has approved that interim CO. At this time the interim CO funds have been exhausted and active demolition is still occurring onsite.

Continued oversight and additional project management will be required to support the project and ensure that Melching, and their subcontractors, complete the project per the bid specifications, as amended. As noted previously the level of GHD project management required for this project has exceeded the effort anticipated due to Melching's inexperience with the necessary project documentation requiring numerous reviews and requests for additional information, poor management and project planning, and alternatives proposed once the project was underway (e.g., recycling concrete from Building 1A, methods to address polychlorinated biphenyl (PCB) contamination, alternative water proofing, changes to restoration specifications, roofing contractor delays, etc.). Also contributing to the additional project management time and effort has been the response necessary to address the condition of Building 2, which was discovered once Building 1 was demolished.

Finally, additional project management time has been spent due to changes to the scope of the project made on behalf of the City (e.g. additional salvage, work on Building 2 and Building 3 south wall).

Melching, Inc. provided an updated schedule on May 4, 2021. This schedule included milestone dates which were used to prepare this CO and are referenced below.

This CO has been prepared to cover the following:

- Construction oversight (10 hours per day) in the field to document and confirm Melching's performance in regard to the project specifications from May 3<sup>rd</sup> through May 7<sup>th</sup>, 2021. Field oversight will be reduced to 8 hours a day beginning on May 10<sup>th</sup> and will continue through June 4<sup>th</sup>, which according to the Melching, Inc. schedule is the final day of demolition activities on Site. GHD will provide a field engineer to complete the oversight activities beginning May 23<sup>rd</sup>. The field engineer can be assigned to the project at a lower rate than the current oversight staff that is necessary to during the major demolition activities.
- Part time construction oversight (up to 4 hours per day) in the field to document and confirm Melching's performance in regard to the project specifications from June 7<sup>th</sup> to July 16<sup>th</sup>, 2021. GHD will provide a field engineer for this task at a reduced rate. The Melching, Inc. schedule shows a completion date of July 16<sup>th</sup>, 2021.
- The electrical costs associated with the Melching and Building Restoration Inc. field trailers. Both field trailers were connected to the electrical service set up by GHD and was not able to be billed directly from Consumers Energy to Melching.
- Outstanding expenses from April including lodging and truck charges. Costs for these expenses were deferred to cover labor costs on the April invoice.
- Additional project management (averaging 4 hours per day), including coordination with Melching, and other contractors hired by the City for the project (from April 27<sup>th</sup> through June 4<sup>th</sup>, 2021).
- Additional project management (allowance of 15 hours per week), including coordination with Melching, and other contractors hired by the City for the project (from June 7<sup>th</sup> through July 16<sup>th</sup>, 2021)

#### 2. Cost estimate

The CO was prepared based on the full schedule provided by Melching, Inc. on May 4, 2021. The schedule includes a completion date of July 16, 2021. However, there are at least two large outstanding change orders that could extend the restoration efforts beyond the July 16, 2021 date. GHD understands that the City may opt to have City personnel provide oversight during strictly restoration related tasks and therefore this CO does not extend beyond the July 16, 2021 date for field oversight or project support of Melching or their subcontractors. A report documenting the project will be prepared per our original contract with the City, following the completion of the project.

Tables attached provide supporting information for this CO. Table 1 provides the breakdown of labor and expenses included in the CO. The CO amount is \$78,310. Table 2 includes a breakdown of the budget, costs to date and costs included in the CO.

Per the original contract, GHD has included a 10% discount on all standard GHD labor rates as well as waving standard Information Technology (IT) charges that are typically applied to each labor hour for the project.

Please contact the undersigned if you have any questions regarding this CO.

Re: Project Delays

Dear Mr. Murphy,

I appreciate the email of 3/26/2021 discussing your rationale for the delay in completing the project. As you know you sent a full schedule in December that had a start date of 7/20/2020 and an end date of 2/12/2021. This allowed a week for the holidays, resulting in 29 weeks to complete the project. It appears the project will be

extended approximately 12-18 weeks.

In our contract, under "Special Conditions, Sc. 02 FAILURE TO COMPLETE WORK ON TIME AND LIQUDATED DAMAGES, 2.1, Liquidated Damages, it outlines actions that could be taken by the City. While the City is not obligated to send you a formal letter, out of courtesy I am doing so. My hope is that we can come to an understanding on how this issue can be addressed. What is at the forefront of the City's concerns (a concern that we have communicated for several months and numerous times) is the additional oversight costs that the City will have to incur to complete this project. It "appears" that the project will be substantially complete (according to the most recent schedule) on May 21 which equates to about 13 weeks with masonry through July 15.

I have summarized your responses (from email) in this letter and added my comments/questions in red. Respectfully, could you address my comments and then calculate exactly how many days the specific item caused in completing the project.

1. Request for salvage of Building #1 bricks not included in base bid **Comment**:

Did accumulating more brick delay the project? It seemed other work was being conducted while the additional brick was being accumulated through a change order. DELAY TIME REQUESTED:

The City of Plainwell is an equal opportunity provider and employer

2. The inability to move equipment and use crane services as needed due to frost laws **Comment**:

If the project had been completed per schedule then the frost laws would not have been an issue would it?

**DELAY TIME REQUESTED:** 

3. Delays related to waste profiles at the landfill to receive approvals related to obsolete sampling dates and missing information.

#### **Comments:**

The sample information was provided with the bid package. Could this have been taken care of prior to or immediately after mobilization? Didn't the landfill want sample analysis for the second profile, not the first?

My understanding is the City asked the lab to see if they could pull the data out of there achieve and I have asked our engineers to estimate a time for the delay (Per City) and was told a week.

**DELAY TIME REQUESTED:** 

4. Delays in multiple scopes and work categories related to project Architect/Engineer response times on RFI's/Designs

#### **Comments:**

Miscellaneous delays for RFI's/Designs are plausible.

**DELAY TIME REQUESTED:** 

5. Delays caused by no decisions on Building #3 south wall, which did not allow for base bid work to occur.

#### **Comments:**

Wasn't there other work being conducted? DELAY TIME REQUESTED:

6. Delays caused by no design on Building #2 south wall, which did not allow for base bid work to occur.

#### **Comments:**

Could you elaborate on this? DELAY TIME REQUESTED:

7. The necessity of vibration monitoring not requested in base bid for demolition work, required this scope to be quoted and implemented with major delays before proceeding with any demolition or approval of work plans. Melching paid in full for this added item over \$15,000 not figured in bid

#### **Comments:**

The bid documents state the historical buildings cannot be damaged. Was a different method proposed that safeguard the buildings? If so, what was that? Did this cause a delay in the project?

**DELAY TIME REQUESTED:** 

8. Major design changes related to existing conditions not foreseen in bid documents such as the west wall of Building #2 not being part of that building, instead being a supported east wall of Building #1.

#### **Comments:**

We understand some of this could have attributed to delays. DELAY TIME REQUESTED:

9. Removal of large amounts of poison ivy located along Building #1/2 that was not requested in base bid, but was required to be killed/removed prior to proceeding with demolition.

#### **Comments:**

I'm not sure how this is a delay in the project. Wasn't the poison ivy isolated to the north side of building 3 and did not prevent additional work from being completed? DELAY TIME REQUESTED:

10. From the time of award to the time of project start, we had 2 roofing contractors back out of the project due to the cost of material increase. Melching was forced to absorb over \$25,000 in additional roofing costs to cover bringing in a new contractor to do the roof work and spent a large amount of time to get a contractor to agree to project and lead time for materials

#### **Comments:**

While not specifically a City issue could you please elaborate how this delayed the project.

**DELAY TIME REQUESTED:** 

11. Stop work order issued during Building #7 demolition by project oversight until landfill issued approval for disposal. Melching was not allowed to proceed with demolition/sorting/piling, which could have been completed during approvals process.

#### **Comments:**

Wasn't there waste that the landfill rejected and was requesting additional samples? Those additional samples would not have been able to be collected if the building had been demolished.

**DELAY TIME REQUESTED:** 

12. Stop work time loss related to unknown mercury findings in basement.

#### **Comments:**

Wasn't this minor and only required stopping work in the basement of Building 29 until the mercury vapor meter could be brought out to the Site?

<u>DELAY TIME REQUESTED</u>:

13. Inability to obtain suitable sand/21AA stone/topsoil after several methanol tests and great expense at multiple locations of material.

#### **Comments:**

While not specifically a City issue, could you please elaborate how this delayed the project.

**DELAY TIME REQUESTED:** 

14. Inability to access north end of buildings effectively during other contractors excavation work which extended well beyond anticipated timeline.

#### **Comments:**

This work was specifically included in the bid documents and coordination with GHD / soil remediation was known going into the project. However, we understand a delay was possible.

**DELAY TIME REQUESTED:** 

15. Substantial delays in all trades and personnel related to COVID-19 which was not known at the time of bidding. Every trade has had to quarantine workers at points throughout project, and has had difficulty staffing additional employees due to unemployment bonus offerings. We have made a significant effort to not add/subtract people to the site to prevent COVID-19 from site members. We have gone through great efforts to social distance and mass decon any high traffic personnel locations. We added radios to all personnel to minimize face to face contact.

#### **Comments:**

None

**DELAY TIME REQUESTED:** 

If you have additional information regarding delays that have not been submitted please feel free to add that information.

It is good to see the work proceeding and I believe the ground crew is doing an excellent job pushing the project forward as much as they can. The City wants to be fair and my hope is we can come to an accommodation that makes all parties happy. Could you please review this letter and respond as soon as possible so we can resolve this issue.

Sincerely,

Erik J. Wilson, Manager

Subject: Barbed Wire Café Request – 142 S. Main Street

Date: May 7, 2021

Barb Bechtel, owner of Barbed Wired Café, is inquiring if she could purchase a portion of what we call the "Jensen Lot." Her intentions are to expand indoor seating with a couple outdoor tables along the west side of S. Main Street (on her property).

I do not have a site plan or know exactly how much property she is looking to purchase. As you know, a couple years ago we discussed the concept of her expanding by putting a deck on this site through a license agreement. She has indicated now her plans have changed and would like the City to consider selling a portion.

I think before the time and expense of a site plan is generated, discussion at the Council level is warranted.

This is my depiction of what I believe she is looking to do.

7 May 2021

Erik Wilson, Manager

City Of Plainwell

140 North Main Street

Plainwell Michigan, 49080

Erik, pursuant to previous conversations, we are financially ready to fund our expansion

We paid the cities revolving loan off approximately 1 1/2 years early the \$25,000 walkin is paid, as is the land contract on the building. Barbed Wire Cafe is completely debt free.

As is my house and our personal vehicles.

Are customer base has expanded and we've gained 1400 page likes in a year, from 800 when covid struck to 2200. Our rating has gone from 4.6 to 4.9. We regularly draw from a 45 mile radius, being a destination point. We have been contracted by the Kalamazoo Kennel club for their three shows providing boxed lunches, we're cooking for a wedding next month, and we continue to support those less fortunate in the community as evidenced at Thanksgiving and Christmas

As our customer base grows, we need more room, and we want to start dinners, as soon as the employment market becomes favorable for employees.

The east side facing main will have outdoor seating, the west side no windows,

but the inside will have the Warnement sign displayed. the wainscott will be wood from the opera house.

I think we've proven our tenacity as we are not one of the 3000 restaurants in Michigan permanently closed.

We are the closest to a museum Plainwell has, we're debt free, and we want to continue to serve the Plainwell and surrounding area with the freshest scratch cooking we can

I cannot in fiscal good conscious put my asset on property we don't own, and with the cost of building materials sky rocketing, we need to get under contract asap. We hope to be complete by fall if we can obtain permits and property quickly.

I know there's alot of buzz over the "new" ones coming to town, but we have proven ourselves in the worst 15 months we've seen in our lifetimes. And survived and paid everything off

Thank you for your considertion

Barb & Gary Bechtel,

Barbed Wire Cafe

140 South Main

#### State Required Reporting Compatible Pollutants

Requirement Reported/MDEQ
---------------------------

#### Carbonaceous Biochemical oxygen demand (CBOD-5):

25 mg/l 15 12.88

This test measures the amount of oxygen consumed by bacteria during the decomposition of organic materials. Organic materials from wastewater treatment facility act as a food source for bacteria.

#### TOTAL SUSPENDED SOLIDS (TSS): 30 mg/l 15 15

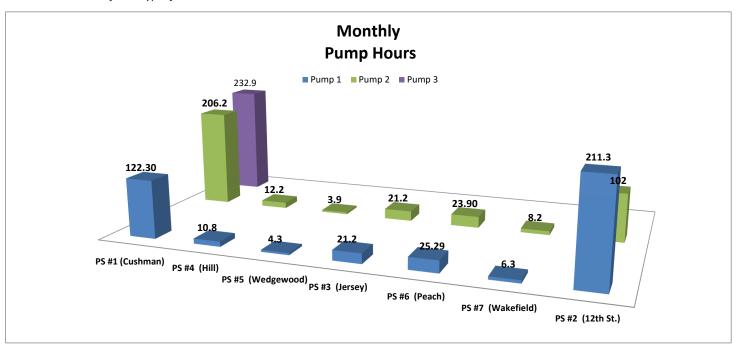

Includes all particles suspended in water which will not pass through a filter. As levels of TSS increase, a water body begins to lose its ability to support a diversity of aquatic life.

PHOSPHORUS (P): 1.0 mg/l 0.45 0.33

Controlling phosphorous discharges is a key factor in preventing eutrophication of surface waters. Eutrophication is caused by water enrichment of inorganic plant nutrients. Eutrophication negatively effects water bodies due to increases in algal blooming, causing excessive plant growth which depletes dissolved oxygen in the river which is necessary for aquatic life to survive.

 Total Coliform (COLI):
 200counts/ml
 50
 1

A group of bacteria found in soil, on vegetation and in large numbers in the intestine of warm-blooded animals, including humans. Water is not a natural medium for coliform organisms and their presence in water is indicative of some type of contamination.

Pumps convey the waste where gravity sewers cannot, run times are a indicator of how the station is operating and being maintained.

#### **Reports & Communications:**

#### A. Special Use Permit – 934 E Bridge Street:

Application has been made for a Special Use Permit for a used car lot at 934 E. Bridge Street. The Planning Commission considered this application at a Public Hearing on May 5, 2021 and recommends approval. **Recommended action:** Consider confirming a change order for \$19,603.75 to GHD for additional construction oversight and project support through April 26, 2021.

#### B. Paper Mill Demolition Project - Change Order for Construction Oversight:

As Council is aware, the demolition project continues and needs additional construction oversight. At the April 26, 2021 Council Meeting, additional costs through April were approved. GHD has worked with the contractor to come up with a tentative timeframe for completion and has offered a quote for additional construction through the end of the project.

**Recommended action:** Consider confirming a change order for GHD for construction oversight for remaining demolition project in an amount not to exceed \$78,310.00.

#### C. Paper Mill Demolition Project – Pay Request Application #5:

This pay requests covers \$582,495 worth of expenditures from Melching Inc., \$113,175 for GHD expenditures related to engineering and demolition oversight, and \$6,635 for architect, structural engineering and air monitoring costs.

**Recommended action:** Consider approving Pay Request #5 in the amount of \$702,305.00 for Mill Demolition work and direct the City Manager to submit to the Michigan Economic Development Corporation for payment.

#### D. Possible Sale of City Owned Land:

Please see memo.

Recommended action: Discussion.
